Subject: RE: Pillon trial update

Ms. Leefers and Mr. Fowlow:

The Court did not sign off on anything regarding the samples – saying that would be a matter for the trial judge, so likely we will need to hang on to them until the time of trial. I am taking you at your word that this is not too big a deal – I did not push the judge for a resolution, but if it becomes an issue I can, so let me know.

The trial has been set for March 5. Mr. Fowlow, please let me know how your availability looks the week of March 5 and whether that week will work for you and your schedule (especially your travel schedule).

Thanks,

Scott

Subject: Pillon trial update

Good Afternoon Scott-

I wanted to check in on two items regarding the Pillon trial. First, has a new date been set or do you have an expected timeframe? Second, did the court make a decision on Friday regarding the samples EPA is currently storing?

Thanks,

Kris
